

Neurtal Electricals

Electrical Engineers & Contractor

Company Profile

www.neutralelectricals.com

**EA LINCENSED
ELECTRICAL CONTRACTOR**

INTRODUCTION

Neutral Electricals provide Electrical Contracting and Lighting Services to Consultants, Builders and End Users in the Building Services Sector of the Indian Construction Industry.

Since 2011, Neutral Electricals has experienced increased awareness through consistently supporting clients with a high quality experience from Design and Tender through Fulfilment to After Care.

We provide a complete Multi discipline package, including design, for all services details below, and to a range of various projects including Schools, Hospitals, Residential, Hotels, Office Development and Retail, Industrial. As a

company, we employ 20 directly employed Engineers, supervisors & electricians and for our financial year end 2014, we have a turnover in excess of ₹ 1 Crore.

Conveniently located in Chennai operate throughout the Tamil Nadu, Karnataka, Andhra.

Services are not simply about a high quality finish but have been designed through consultation with our client's needs in mind and concentrating on ensuring that the experience is free of the more common failings experienced in contracting.

Committing to competitive compliant tenders returned to you on time clearly stating deviations and value engineering options.

Clarity in pre-order negotiation aiming to establish an environment in which expectations are pre-agreed and thus easier to manage.

Individually matching resources to needs for each project in line with the project requirements.

Committing to assist your project managers in meeting varied works or timescales.

Timely and accurate account and variation notification with supporting information to aid management.

Staffed by an energetic and hard working team using the latest technology and with the clients needs at the forefront of what we provide.

Service are offered under an effective business process directed towards ensuring compliance with Opportunities, Health & Safety and Contractual obligations.
