## ABOUT US

Since its inception, NEUTRAL ELECTRICALS has been at the forefront of leading-edge technology with a reputation for high quality design and post - implementation support services which have helped cement a strong growth trajectory for the company.

Our client base includes various Industrial establishments, Schools, Hospitals, Residential complexes, Hotels and so on. We employ a highly dedicated and experienced workforce comprising of engineers, supervisors, electricians & semi-skilled labourers. In FY 2014-15, we achieved a turnover more than Rs. 1.5 crore.

Of late, we have forayed into the solar market and made a successful headway by providing services like PV plant engineering, Construction & Commissioning. Recently, We have executed on-grid 8 MW solar project, 200 KW Roof top project and 0.52 MW captive solar project.

We have expertise in the area of construction and commissioning of solar power plants for the Solar TURNKEY EPC players and our team with experienced engineers and skilled technicians ensure the maximum value delivery to our clients.

We are strongly optimistic about increasing our footprint in the field by executing more high value Solar PV projects.
